GitHub | LinkedIn

PROFESSIONAL SUMMARY

Software developer trained at TS Academy, focused on backend development with Node.js, Express and MongoDB. Led a 6-person team to deliver a full-stack e-commerce platform and built a fintech onboarding API. Seeking a junior software developer or internship role.

SKILLS

Technical: Node.js, Express.js, MongoDB, REST API design, JWT authentication, bcrypt, Jest & Supertest, Postman, Git & GitHub (branching, pull requests)

Frontend (basic): HTML, CSS, JavaScript

Soft skills: Team leadership, task delegation, code review, planning, collaboration

PROJECTS

E-Commerce Order System *(Capstone Project, Group Lead)* GitHub

A full-stack e-commerce platform where customers browse products, manage a cart and place orders, while admins manage products, orders and users through role-based access control.

Tech: Node.js, Express.js, MongoDB, JWT Authentication, bcrypt, Next.js, Jest & Supertest

Fintech Onboarding API *(Practice Project)* GitHub

A backend simulating NIBSS-style onboarding, including BVN/NIN verification flows and account creation, tested with Postman.

Tech: Node.js, Express.js, MongoDB, Postman

PROFESSIONAL EXPERIENCE

TS Academy | Software Development Program *Feb 2026 – Sept 2026*

Completed intensive hands-on training in backend development, API design, databases, and full-stack integration.

- Led a 6-person team through planning, backend architecture and code review for a full-stack capstone project.
- Set up the GitHub workflow (branching strategy, pull requests) and delegated tasks across the team.
- Reviewed teammates' pull requests, catching and fixing bugs before merging.

CERTIFICATION

Software Development Program, TS Academy — Completed Sept 2026 (Graduation: Oct 2026)
